Inner County Outreach (ICO) is a faith-based community organization that has been provided services to the residents of Harford County since 1986. With the aid of MOTA funding ICO has implemented health related programs in the Black/African American, Native American, Hispanic/Latino and Asian American and Pacific Islanders communities.

During the upcoming year ICO plans to educate minority communities about the dangers of cardiovascular disease, low birth weights and infant mortality associated with tobacco use. ICO will engage minority groups and others about being culturally sensitive to the beliefs of others and how to adopt health information to combat health disparities through targeted interventions.

For more information about Inner County Outreach and the MOTA program in Harford County, contact Nathaniel Johnson, President at (410) 272-3278 extension 101.
